## **Supervisors Approve Lake Gregory Repair Project**

**San Bernardino** - The Board of Supervisors awarded a \$71,700 construction contract to Centner Construction of Yucaipa, California for the Lake Gregory Regional Park Senior Center water damage repair project.

During the January 2005 storms, the rainfall caused the building to be flooded and unusable. Subsequently, FEMA inspected the center and found it repairable.

This particular project will repair the damage to the interior as well as exterior walls, replace damaged floors and provide painting as necessary to return the building back to its former state.

The Lake Gregory Regional Park Senior Center in Crestline plays host to numerous community and senior events, such as brunches and other weekly events.

"I am pleased that Centner Construction is available to fix the senior center. I am confident they will complete this important project on time and within budget so the building can again serve as a valuable community resource," said Supervisor Biane.
